

EMERGENCY HORMONAL CONTRACEPTION (EHC)

What training do I have to undertake and how can I access the training?

On a 3 yearly basis, all staff delivering the service should have either attended the CPPE EHC session provided in March 2016 or the CPPE e-learning module 'Emergency Contraception' and the associated e-assessment, and the CPPE e-learning module 'Safeguarding Children & Vulnerable Adults'. Links to these modules can be found below:

<https://www.cppe.ac.uk/programmes/l/ehc-e-03/>

<https://www.cppe.ac.uk/programmes/l/safegrding-e-01/>

When will the EllaOne PGD be ready and where can I get a copy?

The EllaOne PGD will be ready imminently and will be sent to providers we have a contract with. The Levonelle PGD is being reviewed to bring in line with the EllaOne review and is due Summer 2016.

I have missed the opportunity to apply for the service through the dynamic purchasing system; can I still provide the service?

If you have not replied to the tender opportunity and therefore do not have a contract with Public Health Dorset you must refer for supply under a Public Health contract to another provider. A list of providers can be found on the Public Health Dorset website. Another opportunity will be advertised on ProContract in the near future. For more information on how to do business with Dorset County Council, including tender opportunities and how to register on the e-portal "ProContract", please visit <https://www.dorsetforyou.com/394939>.

Can I still order Chlamydia Testing Kits?

It is no longer a requirement of the service to offer a Chlamydia testing kit but include as part of the EHC consultation a discussion about Chlamydia and where appropriate signpost individuals to an online Chlamydia test kit at: <https://www.freetest.me/>
