

# Pharmaceutical Needs Assessment: Wimborne and Ferndown Primary Care Network Draft Profile

## Introduction

Wimborne & Ferndown PCN has no gaps and is predominantly in Dorset Council but some is within BCP Council. It is largely rural with a higher than average proportion of older people compared to both the Dorset and national average.

The PCN has low levels of deprivation with no areas amongst the worst 20% deprived in England. Housing growth will be seen predominantly in Wimborne but also Bearwood, West Parley and Corfe Mullen, provided these developments are completed.

An analysis of health and the wider determinants of health highlights poor outcomes in cancer, coronary heart disease, heart failure, atrial fibrillation, stroke, hypertension, asthma, emergency hospital admissions for hip fractures, hospital stays for self-harm and self-reported limiting long-term illness.

There are currently 14 pharmacies within the PCN as of June 2022. The following headings have been used to describe the locality in more detail:

- Number of pharmacies, openings hours & services
- Demographics
- Deprivation
- Housing
- Health and Wider Determinants

Warning: The geographies within this PCN area can be in the catchment of multiple PCN boundaries. Therefore the information contained within these profiles should not be aggregated or compared with other profiles as this could lead to misleading interpretations.

# Demographics

The population age profile shows that there are approximately 41,400 people registered at GP practices in the Wimborne & Ferndown PCN (20,100 males and 21,300 females).

Compared to the Dorset CCG and national average, Wimborne & Ferndown PCN has a lower proportion of people aged under 18 and a higher proportion of people aged 65 & over.

# Demographics

The area covered by the PCN is largely rural with the highest population density around the town of Corfe Mullen, Wimborne Minster and Ferndown.

Over the next 3 years from 2022-25 projections suggest the population of Dorset overall will increase by 5.2 thousand (1.4%).

This growth is driven by increases in the population aged over 65, with the number of children and young people (aged 0-16) projected to decrease.

The number of over 65s are projected to increase by almost 7.1 thousand (6%) to 2025, compared to a small decrease of around 1 thousand children and young people aged 0-16. The working age population is forecast to remain roughly unchanged. By 2025 those aged 65+ will account for 32% of the overall population.

# Housing

To understand any increases in demand for services based on planned housing developments, planning applications with consent to build to 2025 in BCP and 2026 in Dorset have been analysed. Postcodes (or the nearest existing postcode to the development site) have been matched to LSOAs and then PCN networks.

This gives a realistic picture of housing growth within the PCN. The net level of development for this PCN area is approximately 2509 dwellings. This is about 13% of the total net housing development for BCP and Dorset.

In this PCN the development is predominantly in Wimborne (1129) particularly the Leigh Park area. However there is also planned developments in Merley and Bearwood (415) in the area of Magna Road, around West Parley (296) and Corfe Mullen (181).

# Deprivation

Wimborne & Ferndown PCN has low levels of deprivation with an average IMD 2019 Score of 10.5

Five super output areas (LSOAs) in this PCN are amongst the 40% most deprived in England.

No LSOAs in Wimborne & Ferndown PCN are in the most deprived national quintile and 33 LSOAs are amongst the 20% least deprived.
